Tomas Kowalski

tomas_kowalski2@heldout-example.org · +44 7186 206433

EDUCATION

Diploma Information Technology, Dunmore University, 2018–2021

CERTIFICATIONS

Kubernetes Application Developer - Linux Foundation, 2024

PROFILE

ML Engineer with 3 years' experience.

EXPERIENCE

ML Engineer — Lakeside Data Co (12/2023 – Present)

- Implemented custom layers and training loops for image models.
- Worked with Python in production.
- Migrated on-premise workloads to rented infrastructure.

ML Engineer — Ironbridge Digital (03/2022 – 09/2023)

- Fitted predictive models on tabular data and compared algorithms with cross-validation.
- Versioned experiments and automated retraining and release of models.
- Pulled and aggregated records from relational tables using joins and window functions.

PROJECTS

Cobalt Atlas 1

- Versioned experiments and automated retraining and release of models.
- Engineered input variables and tuned gradient-boosted predictors for churn forecasting.
